

Somebody  
The Chainsmokers

[Refrão]

In the town full of fancy cars and crowded bars and supermodels  
Looks exactly the way it did inside my head when I dreamed about it  
All the things I could live without, I need it now cause they re all around me  
Only thing that I can t afford is to lose myself, tryna be somebody, somebody

[Verso 1]

You should ve known better, than to listen to your heart again  
People change with the weather (you know, just know what I like)  
I don t really like anybody  
So don t tell me I m like anybody else  
You put it back together, don t let it fall apart again  
People change with the weather
