

**Codine**

**The Charlatans**

I couldn't find chords or lyrics to this song anywhere! So finally I listened to this song over and over and guessed. Anyway, I italicized the lyrics I couldn't really understand at all.

Charlatans-Codine Blues

**G A E G E**

Bellys cravin, I got an ache in my head  
I feel like im dying and I wish I was dead  
If I lived till tomorrow that d be a long time  
I ll leave and I ll fall, And rise on codine

**G A E G E**

And its real lord its real  
One more time

Stay away from the pool halls and taverns in town  
Stay away from the man with that pole in the ground  
Stay away from the store where liquor is found  
Stay away from all ...and stay on codine?

Solo

You ll forget you re a woman  
You ll forget about men  
Try it just once and you ll try it again  
You ll forget about dying you ll forget about time  
Live on your faith and sleep on codine

And its real lord its real  
One more time  
And its real lord its real  
One more time  
And the sun will fall and rise on codine
