

Galvanize
The Chemical Brothers

Okay, messing around with this song, came up with this, play around with the rhythm and pick it up, sounds about right.

play this part throughout the verse s and chorus

```
-----|  
-----|  
--10--10--12-----|  
--10--10--12-----|  
--8---8---10-----|  
-----|
```

continue playing the last chord until it starts again if you feel like it.

On the quiet part play it muted with an occasional chord.

```
---x---x-----|  
---x---x-----|  
---x-12-x-----|  
---x-12-x-----|  
---x-10-x-----|  
---x---x-----|
```

As it speeds up play this repeatedly until it kicks back in with the main riff.

```
-----|  
-----|  
---12/13/12-----|  
---12/13/12-----|  
---10/11/10-----|  
-----|
```

Like i said, not exact but mess around it with and you ll pick up a rhythm :)
