Am Em F# G  
Emerald haunt in overdrive  
Nightmare descent into Jericho City  
Camel dust heralds our arrival  
New Christ beneath the drum kit moon

F G  
Oh lord we are threatened again  
In the slipstream pull of the federal men  
Plummet in some seamless night  
Down here to earth it s hopeless then

Am Em F# G  
Apache gunmen in the boiling crowd  
Who never got to meet you last time  
We re interrupted by the telephone  
You didn t think they were invented then

F G  
Oh lord we need miracles  
We need more wine and gold  
We need slaves and roads and personal favours  
We need microphones and manifolds

F#m E F#m E  
How can you be so invisible, give me the nerves to see

A D F#m E  
Privilege on privilege, an unwanted discovery

Am Em F# G

So now we re cruising down this shuddering highway  
 With a dead sun shining on my back  
 And we talk about the way people treat us back there  
 The hollow laughter the pain in their eyes

**F** **G**  
 Oh my lord I trust your intentions  
 But money strangles our love  
 Struggling like a fool with my junk and my jewels  
 You would have thought I d had enough
