

Up In Heaven (Not Only Here)
The Clash

A **D** **A**
The towers of London, these crumbling rocks
D **F#m**
Reality estates that the hero s got
Bm **G**
And every hour s marked by the chime of a clock
A **A**
And whatcha gonna do when the darkness surrounds?
A **D**
You can piss in the lifts which have broken down
F#m **A/E** **D**
You can watch from the debris the last bedroom light
F#m **D** **D/E** **A** **D** **F#m** **D**
We re invisible here just past midnight

The wives hate their husbands and their husbands don t care
Their children daub slogans to prove they lived there
A giant pipe organ up in the air
You can t live in a home which should not have been built
By the bourgeoisie clerks who bear no guilt
When the wind hits this building this building it tilts
One day it will surely fall to the ground...

Fear is just another commodity here
They sell us peeping holes to peek when we hear
A bang on the door resoundingly clear
Who would really want to move in here?
The children play faraway, the corridors are bare
This room is a cage its like captivity

A **D**
How can anyone exist in such misery?
D **A** **D** **A** **D** **Bm** **G**
It has been said not only here

A **D**
Allianza dollars are spent
A **D**
To raise the towering buildings
A **D**
For the weary bones of the workers
Bm **G** **A**
To go back in the morning
To be strong in the morning
A **D** **A** **D** **A** **D** **Bm** **G**
