```
G                                    D          C        G D C
She s cold and she s cruel but she knows what she s doing
G                                 D        C     G D C
She pushed me in the pool at our high school reunion
G                            D          C      G D C
She laughs at my dreams, but I dream about her laughter
G                          D      C      D (one strum) C
Strange as it seems, she s the one I m after
```

[Chorus]

```
          G      D
Cause she s bittersweet
            Em      C
She knocks me off my feet
       G
And I can t help myself
          D      C
I don t want anyone else
       G    D
She s a mystery
         Em      C
She s too much for me
      G          D        Am
But I keep coming back for more
       Em            C        G
She s just the girl I m looking for
```

[Verse 2]

```
G                            D          C    G D C
She can t keep a secret for more than an hour
G                         D      C    G D C
She runs on one hundred proof attitude power
G                           D      C        G D C
```

And the more she ignores me the more I adore her

G   **D**   **C**   **D** (one strum) **C**
What can I do? I d do anything for her

[Chorus]

Em   **G**
The way she sees it s me
                       Am
On her caller ID
                                   D
She won t pick up the phone
              Eb?   **E**
She d rather be alone
                                   G
But I can t give up just yet
                                        Am
Cause every word she s ever said
           Em   **C**
Is still ringing in my head
                      F   **C**
Still ringing in my head

[Verse 3]

G   **D**   **C**   **G D C**
She s cold and she s cruel but she knows what she s doing
G   **D**   **C**   **D**   **C**
Knows just what to say so my whole day is ruined

[Chorus]

Em   **G**
The way she sees it s me
                       Am
On her caller ID
                                   D
She won t pick up the phone
              Eb?   **E**
She d rather be alone
                                   G
But I can t give up just yet
                                        Am
Cause every word she s ever said
           Em   **C**
Is still ringing in my head
                      F   **C**
Still ringing in my head
