But He Rose
The Collective Projects

[Verse]
```
C#m                  A    Bm              C#m
Gods wrath upon Him He dewlt in darkness
                     A                    Bm
He emptied his cup and spilled his blood
C#m               A    Bm         C#m
Deprived of His peace denied and betrayed
                  A      Bm
You had no splendor or beauty
```

[Chorus]
```
        A  Bm      E                      C#m               A
But He rose Now behold the perfect grace that we have found
          Bm      E                  C#m          A Bm
and stand free to praise the one who took our sins away
```

With great affliction and streams of tears beaten though you did no wrong
C#m             A            Bm         C#m             A              Bm
You left your majesty you laid down all pride you took my place upon the cross
