

**Future Man**  
**The Colour Movement**

Hello! This is a quick guide to the chords of Future Man , by The Colour Movement. This is my first ever tab and I m still a beginner on guitar but I couldn t find this tab anywhere; so here it is.

-----  
FUTURE MAN - The Colour Movement  
-----

**C**  
Hoping for the best, expecting the worst

**Am**  
I think I ll have a drink to cure this pain first

**C**  
And, yes, both of us were screaming down the phone

**Am**  
And, yes, for both of us it s so damn hectic

**Dm (F)**  
But I know

**C**  
It s the future man that I want

**Am**  
What we re both searching for

**C**  
It s the future man that I want

**Am Dm Am**  
What we re both searching for

-----

The pattern continues like this throughout the whole song. There is also a gap between the first chorus and second verse which is filled with this:

-----

e |-----|  
B | -1-----|  
G | -----0-----|  
D | --2-----|  
A | -----3-----|  
E |-----|

repeated four times.

I hope you enjoyed this tab. I am a beginner so feel free to correct any mistakes

I have made (which, hopefully, will be none!). The song is fairly easy, but then again it was made on a machine so it probably would have to be :)
