verse 1:
```
G#                                Bbm
Well the pain's the hardest thing to remove
G#                                       Bbm
You said all you had to say and you had nothing to prove
G#                                Bbm
Young love can bend and break easy enough
C#                      Bbm           G#
Instead of getting married before we split up
```

Pre-Chorus
```
G#                          Bbm
You said you'd never lie, you'd never lie
G#                                       Bbm
But you've never tied, No you've never tried
G#                              Bbm
I guess breaking up is easy for some
C#                              Bbm                 G#
```

But all men know what you left, the ink had run

Chorus:
```
G#                        Bbm
30 years old and you're born again
G#                          Bbm
A brand new you now you need, brand new friends
G#                            Bbm
How many guys have you had under your spell
C#            Bbm7      G#
And why are you so c.r.u.e.l.
```

Break:

verse 2:
Funny how things can change so fast
You were my future but now you're my past
You were waiting but it never was delivered
She wanted all those things that I couldn't give her

Pre-Chorus 2:
You need someone, Yh you need someone
Picking you up everytime I am gone
You said you shiver when we're not together
But that cold that you're feeling, well it isn't the weather

Chorus:
30 years old and you're born again
A brand new you now you need, brand new friends
How many guys have you had under your spell
And why are you so c.r.u.e.l.

```
G#        Bbm       G#       Bbm
G#        Bbm       C#    Bbm      G#

```
G#                   C#

G#                     C#
As I recall it was like we never started
G#                  C#
Oh let me go, is how we parted
C#            Bbm     G#
```

30 years old like it never ends
Despite all the cracks cause your, heart doesn't bend

How many guys have you had under your spell
