It was the mid-late 70 s and a group of gentlemen from Ottawa decided they d show the how much better Canadian country rock is. The tune went a little something like this:

ROCK & ROLL COWBOYS

INTRO CHORDS G - F#/D - E

VERSE 1

G **C**
Saw you coming into town just yesterday
Am **Bm** **C** **D**
It looked like you had a posse or two upon your heels
C
A seedy crew
D
I m telling you
G **Am**
Wouldn t want to meet yous on some darkened street no..no..
D
I ve heard all about the likes of you
(Yeah you look like...)

CHORUS

C **D** **G**
Outlaws waiting for the stage
C **D** **G**
Desperadoes from another age
C **D** **G**
E->
So lock up your daughters and hide your silver away
C **D** **G**
Those rock and roll cowboys are on the road again

VERSE 2

G **C**
Drifting round the country like you had no home
Am **Bm** **C** **D**
Every night a party or two before you turn in
C
A sorry crew
D

I m telling you

Wonder where you ll be in a few years from now

Wonder what the ladies see in you

Say ain t I seen your faces before

On some booking agent s wall

Staring out so spaced from a glossy eight-by-ten

Or maybe on a late night duster

Or on some tv show

But hey I know somewhere I ve seen you crazed old men
(Yeah you look like...)

REPEAT CHORUS X4

Thanks Guys!
