After all that, go back to the beginning (except the first two chords, of course) and play as if you re doing that section (until I ve written repeat from the E chord) for the second time, i.e. with two C#m spreads at the end. Then you continue until you get to the two bars which have C#m - C#m/F# - F#m written over them, and you repeat those two bars until it eventually fades out.

This is my first tab proper (honest) so be kind. Difficult to hear the bassnotes on the acoustic guitar over the bass itself, so if they sound wrong just do what the bass is doing. Not 100% for all of it, but it s pretty swish nonetheless.

Cheers,

N.
