Corb Lund - Dig Gravedigger Dig Acoustic

<http://www.youtube.com/watch?v=l7QlWgxNFEw>

This should be enough to get you going, it s not perfect but the general shape is there. Just listen to the song to get the weird strumming pattern somewhat down.

I realize the chord names may not be right but hopefully they ll get the point across.

Work that shovel with vigor, Gravedigger

G **A** **E** **A** Go

Before rigor mortis sets in, dig

Dig, dig, Gravedigger

Dig, Gravedigger, dig

That big old hole just keeps gettinâ€™ bigger

So dig, Gravedigger, dig

Asus **E**

He donâ€™t mind the cadavers, he donâ€™t mind human remains

B **A** **E**

He got no problem sleepinâ€™ at night, ainâ€™t nothinâ€™ a little whiskey wonâ€™t tame

Asus **E**

I asked about ghosts and spirits, I asked him if he ever got spooked

B **A**

E **A** Go

I asked him if he ever gets haunted by souls, but he reckons that he buries them, too

Asus

E

Nah, he ainâ€™t bothered by corpses, hell, heâ€™ll plant stiffies all day

B

A hold

See, heâ€™s on a some kinda piecework deal, he gets paid by the grave

He could be makinâ€™ more money, he could be out workinâ€™ the rigs

But he says he donâ€™t really like no company, he says heâ€™d rather just dig

Gravedigger, he got secrets, he told me as he lit up a cig

He says you gotta watch you donâ€™t badger the hole when youâ€™re cutting through the

roots and the twigs

Heâ€™ll work right through in the darkness, then heâ€™ll stop and heâ€™ll take him a swig

Drive by the right time of the night you might find him in the moonlight doinâ€™ a jig
