

Guitar From The Wall
The Corb Lund Band

Song: Guitar From The Wall
Band: Corb Lund Band
Album: Unforgiving Mistress
Chorded by: ultimatelefty

Probably my favourite song off of Unforgiving Mistress, a very underrated album like the rest of Corb Lunds albums.
Anyways, please rate, comment, and enjoy!

Capo on 2nd fret. only the bottom 5 strings though. Leave the low E open and that will give you that drop D tuning and still play all the chords the normal shapes.
