[Verse 1]

**F#m**

Leave you a note, give you time to find growth and

**A**

And I all the hope - I couldn't not phone you

**E**

Hello I'm a mess, it's more than just stress yeah

**D**

I need you to tell me it's still for the best

**F#m**

Did we try hard enough, were we too quick to give up yeah

**A**

I question the things that made us corrupt and

**E**

I know I'm hard work but I minded you first

**D**

Now I need you beside me to just ease my hurt yeah

[Chorus]

**A**

If I don't make it back again

**E**

**F#m**

**E**

**D**

Tell them I tried, I never wanted to leave like this

**A**

**E**

**D**

Can't quite imagine it fading away

**A**

You don't know the half of it

And I can't quite imagine it being okay

**F#m**

Was it just in my brain?

[Post Chorus]

**A**

**F#m**

Cause I wasn't sure, I've never been too logical

**D**

And I couldn't tell if you wanted me to stop

[Verse 2]

**F#m**

Lock me away, give me time to save face yeah

**A**

I cringe when I think of how I behaved that day

**E**

Text you three times and not one reply

**D**

I m a little bit nervous of what I might find

**E**

**D**

Maybe you ve moved on, you seem so much stronger and new

Oh tell me how

[Chorus]

**A**

If I don t make it back again

**E**

**F#m**

**E**

Can t quite imagine it fading away

**A**

You don t know the half of it

Was it too much to ask you to find me tonight

**D**

**A**

**E**

Ah cause I, I can t quite imagine it being okay

**D**

**A**

And we made what we could of it then and it helped bring you back

**E**

**F#m**

**E**

The least you could do is say thank you for that
