

**I Dont Need
The Cranberries**

I Don t Need
The Cranberries

[G - D - Am - Em. Repeated over and over]

The world is consuming me and I don t feel so happy here today
I m not and I don t feel and I used to be a baby in my head
So where is it what do you like does she hold you happy next to her
And your head hangs lightly and everyone s slightly drunk tonight
They re drunk tonight again, la-la-la etc.

Em **Am**
I Don t need to see it, no, no, no etc.
Em **Am** **G**
I Don t need to see it, no, no, no etc.

My head is hanging now and my eyes are brown, they re brown, they re brown
And everyone s so patronizing I don t see when the rifting comes around
So where is your mother now, and she holds you happy next to her
And your head hangs lightly and everyone s slightly drunk tonight
They re drunk tonight again, la-la-la etc.

I Don t need to see it....

And there ll be no more time today, no more time today, no, no
No more time today, no more time today.....
