Verse:

**Gm** **Dm**  
There s a dark fading light  
**Cm**  
In the garden where you  
??? **Gm**  
Lay your head tonight  
**Gm**  
Through the darkened hours  
**Dm**  
Were you thinking of me?  
**Cm**  
A state of sleep  
**Gm**  
Is what you d rather be

There s a pale Purple moonlight  
In the garden where you  
Lay your head to die  
Frozen dreams and nightmares  
Have you forgetting a dream  
Of what you always thought  
You could have beenâ€|

Chorus:

**A#** **Am**  
Hey don t draw the line  
**Dm** **D#m**  
Did you know that you re right  
**A#** **Am**  
So baby blue don t cry  
**Dm**  
Don t you go nowâ€|  
**D#m**  
Don t you go nowâ€|

There s a stale morning light

In the garden where you lay  
All through the night  
Through this poisoned nightmare  
Have you set yourself free?  
With thoughts and dreams  
Of what you re gonna beâ€¦|

Hey don t draw the line  
Did you know that you re right  
So baby blue don t cry  
Don t you go nowâ€¦|  
Don t you go nowâ€¦|

Hey don t draw the line  
Did you know it ll be all right  
So baby blue don t cry  
Don t you go nowâ€¦|  
Don t you go nowâ€¦|

Hey don t draw the line  
Did you know it ll be all right  
My baby blues don t cry  
Don t you go nowâ€¦|  
Don t you go nowâ€¦|  
Hey don t draw the line  
Did you know that you re right  
So baby blue don t cry  
Don t you go nowâ€¦|  
Don t you go nowâ€¦|

I would put the chords over the whole song, but that takes too long. Also, there is one I m unsure of in the verse. I put question mark there. I would have put the strumming but that takes too long, and if you know how to play guitar it will be easy for you to out anyways.

Let me know what you think.....
