The Crookes - Just Like Dreamers

**A**                    **F#m**                    **E**  
She kept summer days for drifting away...  
**C#**        **D**                                    **A**                                    **E**  
...to a mind in disarray, the English sky s too Oxford grey.  
**A**                    **F#m**                    **E**  
Failing to see through God-awful views...  
**C#**                                    **D**                                    **A**                                    **E**  
...she would burn like dreamers do. It pays off for the lucky few.

**A**                    **A**  
I m leaving, believe me.  
**F#m**                    **F#m**                    **Bm**                    **D**  
I m leaving, believe me now...our dreams sleep...

I ll keep summer days for drifting away...  
...as my mind slips through the haze of tower blocks that mark decay.  
Days and dreams align, but now I m blind.  
And you words were so unkind.  
Why would you say I ve lost my mind?

**A**                    **A**  
I m leaving, believe me.  
**F#m**                    **F#m**                    **Bm**                    **D**                                    **E**  
I m leaving, believe me now...our dreams sleep in the ground.

**A**                    **A**  
I m leaving, believe me.  
**F#m**                    **F#m**                    **Bm**                    **D**                                    **E**  
I m leaving, believe me now...our dreams sleep...

**E**                                    **A**    **D**                                    **E**                                    **A**    **D**                                    **F#m**  
Now these distant memories move slow. Burning like an effigy of hope.  
**Bm**                                    **E**                                    **A**                                    **F#m**                                    **Bm**  
Cos even though it chokes me to know I was always meant for Chasing After  
Ghosts,  
**E**  
One day I ll let ...

**Bm**                    **E**                    **A**                    **F#m**                    **Bm**                    **E**                    **A**                    **F#m**  
**Bm**                    **E**                                    **A**                                    **F#m**

This love is all, this love is all, this love is all

**Bm**

there s nothing more

**E**

**A**

**F#m**

This love is all, this love is all, this love is all

**Bm**

there s nothing more

**Bm**

**E**

**A**

**F#m**

**Bm**

**E**

**A**

**F#m**

**Bm**

**E**

**F#**

This love is all...there s nothing more!

**Bm**

**E**

**A**

**F#m**

**Bm**

And it chokes me to know I was always meant for Chasing After Ghosts

**E**

**A**

**F#m**

and so, I ll leave you on your own

**Bm**

**E**

**A**

**F#m**

**Bm**

You re still dancing through my mind, despite how hard I try to let this go

**E**

I can t let you...
