Say goodbye on a night like this
                              D
If it s the last thing we ever do
You never looked as lost as this
Sometimes it doesn t even look like you
       F#m
It goes dark
       D
It goes darker still
  В
      D
Please stay
     F#m
But I watch you like I m made of stone
      В
As you walk away
C#
I m coming to find you if it takes me all night
A witch hunt for another girl
For always and ever is always for you
                                          F#
Your trust the most gorgeously stupid thing I ever cut in the world

             D
