

Desintegration

The Cure

[Intro] C D11 Em
C9 D9(11) Em9

C9 D9(11)
Oh I miss the kiss of treachery
Em9 Em7 Em
the shameless kiss of vanity
C9 D9(11)
The soft and the black and the velvety
Em9 Em7 Em
up tight against the side of me
C9 D9(11)
And mouth and eyes and heart all bleed
Em9 Em7 Em
and run in thickening streams of greed
C9 D9(11)
As bit by bit it starts the need
Em9
to just let go my party piece

(C9 D9(11) Em9)

C9 D9(11)
Oh I miss the kiss of treachery
Em9 Em7 Em
the aching kiss before I feed
C9 D9(11)
The stench of a love for a younger meat
Em9 Em7 Em
and the sound that it makes when it cuts in deep
C9 D9(11)
The holding up on bended knees
Em9 Em7 Em
the addiction of duplicities
C9 D9(11)
As bit by bit it starts the need
Em9
to just let go my party piece

C D11
But I never said I would stay to the end
Em
so I leave you with babies and hoping for frequency
C D11
Screaming like this in the hope of the secrecy
Em
screaming me over and over and over

C **D11**
I leave you with photographs pictures of trickery

Em
stains on the carpet and stains on the scenery

C **D11**
Songs about happiness murmured in dreams

Em
when we both of us knew how the ending would be

(**C9** **D9(11)** **Em9**)

C9 **D9(11)**
So it s all come back round to breaking apart again

Em9 **Em7** **Em**
breaking apart like I m made up of glass again

C9 **D9(11)**
Making it up behind my back again

Em9 **Em7** **Em**
holding my breath for the fear of sleep again

C9 **D9(11)**
Holding it up behind my head again

Em9 **Em7** **Em**
cut in deep to the heart of the bone again

C9 **D9(11)**
Round and round and round and it s coming

Em9
apart again over and over and over

C **Bm**
Now that I know that I m breaking to pieces

Em
I ll pull out my heart and I ll feed it to anyone

C **Bm**
Crying for sympathy crocodiles cry for the

Em
love of the crowd and the three cheers from everyone

C **Bm**
Dropping through sky through the glass of the roof

Em
through the roof of your mouth,
through the mouth of your eye

C **Bm**
Through the eye of the needle it s easier for me

Em
to get closer to heaven than ever feel whole again

C **D11/F#**
I never said I would stay to the end

Em
I knew I would leave you with babies and everything

C **D11/F#**
Screaming like this in the hole of sincerity

Em

screaming me over and over and over

C **D11/F#**

I leave you with photographs, pictures of trickery

Em

stains on the carpet, stains on the memory

C **D11/F#**

Songs about happiness murmured in dreams
