From The Edge of The Deep Green Sea
The Cure

Intro: **E-D-E-D-E-D... Em D* G Am**   [**D*** 2 0 0 2 3 0 (**Dsus2/F#**)]

Em   **D***   **G**   **Am**
every time we do this, I fall for her
Em   **D***   **G**   **Am**
wave after wave after wave it s all for her
Em   **D***   **G**
i know this can t be wrong i say (and i ll lie to keep her happy)
Am   **Em**   **D***
as long as i know that you know that today i belong
G Am
right here with you, right here with you...

and so we watch the sun come up from the edge of the deep green sea
and she listens like her head s on fire,
like she wants to believe in me
so i try put your hands in the sky
surrender
remember
we ll be here forever and we ll never say goodbye...

i ve never been so colourfully-see-through-head before
i ve never been so wonderfully-me-you-want-some-more
and all i want is to keep it like this
you and me alone, a secret kiss
and don t go home, don t go away
don t let this end, please stay
not just for today

never never never never never let me go she says
hold me like this for a hundred thousand million days
but suddenly she slows
and looks down at my breaking face
why do you cry? what did i say?
but it s just rain i smile
brushing my tears away...

Bm   C
i wish i could just stop
D   Em
i know another moment will break my heart
Bm   C
too many tears, too many times
D   Em
too many years i ve cried over you

E   D

```
how much more can we use it up?
E            D
drink it dry? take this drug?
E                    D
looking for something forever gone
E                  D
but something we will always want?

why why why are you letting me go? she says
i feel you pulling back, i feel you changing shape...
and just as i m breaking free
she hangs herself in front of me
slips her dress like a flag to the floor
and hands in the sky surrenders it all...

i wish i could just stop
i know another moment will break my heart
too many tears
too many times
too many years i ve cried for you
it s always the same
wake up in the rain
head in pain
hung in shame
a different name
same old game
love in vain
and miles and miles and miles and miles and miles
away from home again...
```
