Interlude Repeat Riff 1: **Cm, B, A, B** (x2)

Repeat Riff 1: **Cm, B, A, B** through the verse

All the stuff we know we never want
Seems like we get it anyway
Safe to say it isn't really wrong
Not when we know we only...
Throw it all away

Repeat Riff 1: **Cm, B, A, B** through the verse

Yeah all of this we never know we want
it's like we get it anyway
Safe to say it isn't ever wrong
Better to get than to delay
A 3d screen
A cleaner fit
A bit pulled out of every hit
Addicted latest greatest piece
Design caprice and make the headline
No it doesn't come for free
But it's the price
We pay for happiness

Repeat the bridge chords: **F#m, G#m, Cm, A** through the verse

Dream a world maybe
no one owns
No don't think about
all the life we miss
