Interlude Repeat Riff 1: **Dm, C#, B, C#** (x2)

Repeat Riff 1: **Dm, C#, B, C#** through the verse

All the stuff we know we never want  
Seems like we get it anyway  
Safe to say it isn't really wrong  
Not when we know we only...  
Throw it all away

Repeat Riff 1: **Dm, C#, B, C#** through the verse

Yeah all of this we never know we want  
it's like we get it anyway  
Safe to say it isn't ever wrong  
Better to get than to delay  
A 3d screen  
A cleaner fit  
A bit pulled out of every hit  
Addicted latest greatest piece  
Design caprice and make the headline  
No it doesn't come for free  
But it's the price  
We pay for happiness

Repeat the brigde chords: **G#m, Bbm, Dm, B** through the verse

No don't talk about more  
to life than this  
Dream a world maybe  
no one owns  
No don't think about  
all the life we miss

**G#m** **Bbm**  
Swallow doubt as the hunger grows

**G#m** **Bbm**  
Make believe it's like no one knows

**G#m** **Bbm**  
Even if we turn more to most  
**B** **C#**

We ll never satisfy the hungry ghost

**Dm**  
And all of this

**C#**

We know we never need

**B**

Well it's the price

**C#**

We pay for happiness
