

The Only One
The Cure

G# **Eb**
Oh I love, Oh I love, Oh I love

Cm
What you do to my head

C#
When you pull me upstairs

G#
And you push me to bed

Eb
I love what you do to my head

C#
It s a mess up there!

Oh I love, oh I love, oh I love
What you do to my heart
When you push me back down
And it pulls me apart
I love what you do to my heart
It s the best, oh yeah!

Oh I love, oh I love, oh I love
What you do to my lips
When you suck? me inside
And you blow me a kiss
I love what you do to my lips
It s so sweet in there?

Oh I love, love, love, love
What you do to my hips
When you blow? me outside
And then suck? me like this
I love what you do to my hips
It s the ???, oh yeah!

F#
You re the only one I d cry for

C#
The only one I d try to please

F#
You re the only one I d sigh for

C#
The only one I d die to squeeze

B
And it gets better everyday, I play

C#
With you it s such a scream

B

Yeah it gets better everyday, I say

C#

and with you it s so extreme

B

Yeah it gets wetter everyday, I say

G# (?)

With you it s like a dream

Oh I love, Oh I love, Oh I love

What you do to my skin

When you slip me on

And slide me in

I love what you do to my skin

It s a ?????

Oh I love, love, love, love

What you do to my bones

When you slide me up

And slip me home

I love what you do to my bones

It s the ???

You re the only one I d cry for

The only one I d try to please

You re the only one I d sigh for

The only one I d die to squeeze

And it gets hazier everyway, I sway

With you it s such a scream

Yeah it gets mazier every play, I say

With you it s so extreme

Yeah it gets crazier everyday, I say

With you it s like a dream
