C G Am F - all the way through

Verse 1

Some people say that it was
a game you played with me,
a common deception,
but i knew all along that
it was just fun and you werent
in it for the long run
We were young and you were smart,
you wanted to travel we were worlds apart
I went off to sing in London Town,
I wanted to sing, to make you proud

Chorus

And i ll wait, for someone just like Kate,
to come and fill that space, to come and x2
erase all the memories

Verse 2

Open your eyes, cuz you might find,
something more than just a common attraction,
We ve been through alot, but somehow you forgot,
now im left with just a shattered illusion,
and i sing, to avoid everything
i drink coffee and read magazines,
take a walk to avoid small talk,
take a run back to yesterday

Chorus

And i ll wait, for someone just like Kate,
to come and fill that space, to come and x2
erase all the memories

Bridge

Oh damn*, now im frustrated
we re both at different stages,
We walk at different paces

all clocks are syncopated

Chorus

And i ll wait, for someone just like Kate,
to come and fill that space, to come and x3
erase all the memories
