

**Coming Down That Road**  
**The Deaf**

The Deaf is a rock band from Den Haag (The Hague), Netherlands inspired by pretty much all the old school stuff. I've seen them live a few times, and I like this song a lot! On youtube I noticed a lot of people asked for tabs/chords/lyrics but nobody was able to actually figure them out. Therefore I thought I'd give it a shot and I think it worked out pretty decent.

There's different ways to play it:

- The simplest way, just the way it is. Standard tuning, nothing special.
- The original version, tuned down 1 half step.
- Spike and Janneke's acoustic version, with a capo on the 6th fret.

Enjoy, and don't forget to get laid! ;)
