

The Place I Left Behind
The Deep Dark Woods

All parts of the song goes around the same chords, except the instrumental C - part that
i have not figured out yet.

It wasn't possible to find lyrics for this song, so i have listened carefully and tried to figure them out (and i think i am almost right).
The chords was found by listening and watching movies of live performances.

- Enjoy, Stefan

The girls they treat you, mighty fine
Never get them off your mind
