

**Gracefully Facedown**  
**The Devil Makes Three**

**D**

Lately things ain t been going my way

**G**

Consequently I ve been drinking nearly every day

**A**

It s hard to keep your head up when they re knocking you down

**D**

So I been making that all go round

**D**

Drinking bottom shelf bourbon to ease my mind

**G**

Seems to work alright til closing time

**A**

But you know you re gonna come down every night

**D**

And there ain t no way you ll ever feel satisfied

**G**

Ain t that hard to figure where to begin

**D**

It s Friday night so I m rushing in

**E**

**A**

Like a fool I get it anywhere I can

Chorus

**D**

**D**

Well I m having a hard time Walking a straight line

**G**

Seeing two of every single neon sign Well now

**D**

you ll find me downtown

Dsus7

Gracefully face down

**E**

**A**

**D**

Just wishing I could feel alright

Verse

**D**

Lately I ve been wanderin around with eyes closed

**G**

It seems like I been heading down the wrong road

**A**

I Thought I d find my way by now

**D**

But I still got lost somehow

**D**  
You hear shots fall down from Heaven above, You might

**G**  
lose a friend you might fall in love, But you

**A**  
know you re gonna come down every night, and there

**D**  
ain t no way you ll ever feel satisfied

**G**  
Six in the morning til your dying day, it s

**D**  
straight bad news and bills to pay, but come

**E** **A**  
five o clock you re feeling good again

Chorus

**D** **D**  
Well I m having a hard time Walking a straight line

**G**  
Seeing two of every single neon sign Well now

**D**  
you ll find me downtown

Dsus7  
Gracefully face down

**E** **A** **D**  
Just wishing I could feel alright

Verse

**D**  
Well I been so high I hit my head on the ground, Sat

**G**  
up on the floor seems the room spin around, But when you

**A**  
squint real hard through the bottom of the bottle, Things

**D**  
really don t look so bad

**D**  
You drink a cheap malt liquor from a 40 oz bottle

**G**  
Swig some bourbon, some pills if you ve got em, But you

**A**  
know you re gonna come down every night and there

**D**  
ain t no way you ll ever feel satisfied, There s

**G**  
years of my life I don t remember at all, Like

**D**  
one Friday evening I can barely recall, There was a

**E** **A**

sad situation in a bar room bathroom stall

Chorus

**D** Well I m having a hard time Walking a straight line **D**

**G** Seeing two of every single neon sign Well now

**D** you ll find me downtown

Dsus7

Gracefully face down

**E** Just wishing I could feel **A** **D** Dsus7  
alright

**E** Just wishing I could feel **A** **D**  
alright
