

**Wishful Thinking**  
**The Ditty Bops**

**F**

Why does blood turn brown when it dries

**G**

Why do the tears well up in your eyes

**C#b**

Why didn't I learn to ride my bike

**F**

**C#b**

When it was warm and sunny outside

**F**

Why can't little kids tie their shoes

**G**

Why can't the white people play the blues

**C#b**

Why can't I fall in love with you

**F**

It must be because of the seasons

**C#b**

**F**

When the leaves start falling from the trees

**C#b**

**F**

When the birds start flirting with the bees

**C#b**

**F**

**F13**

When the wind starts blowing from the East to the West

**Bb**

**Bbm**

**F**

Maybe you'll be the one that I like best

**F**

Clouds start forming I can't complain

**G**

Cause I think we might be in need of some rain

**C#b**

When it starts pouring

**F**

**C#b**

Don't hide away without me

**F**

I bought an umbrella big enough for two

**G**

But it feels pretty empty under here without you

**C#b**

Dry as a bone but I'm still alone

**F**

I'm so gray

**C#b**

**F**

When you're standing in a puddle with wet feet

**C#b** **F** **F13**  
And your head is sore from pounding drops of sleet  
**C#b** **F** **F13**  
When the cold and lonely hours put your heart to the test  
**Bb** **Bbm** **F**  
Maybe I ll be the one that you like best

**Bb** **Bbm**  
If the sky can open its eyes  
**F** **G**  
And cry from up above  
**Gm** **C#b**  
Let s shed some tears of joy  
**F13** **F**  
And fall in love
