

**Wishful Thinking**  
**The Ditty Bops**

**F#**

Why does blood turn brown when it dries

**G#**

Why do the tears well up in your eyes

**Db**

Why didn't I learn to ride my bike

**F#**

**Db**

When it was warm and sunny outside

**F#**

Why can't little kids tie their shoes

**G#**

Why can't the white people play the blues

**Db**

Why can't I fall in love with you

**F#**

It must be because of the seasons

**Db**

**F#**

When the leaves start falling from the trees

**Db**

**F#**

When the birds start flirting with the bees

**Db**

**F#**

**F#13**

When the wind starts blowing from the East to the West

**B**

**Bm**

**F#**

Maybe you'll be the one that I like best

**F#**

Clouds start forming I can't complain

**G#**

Cause I think we might be in need of some rain

**Db**

When it starts pouring

**F#**

**Db**

Don't hide away without me

**F#**

I bought an umbrella big enough for two

**G#**

But it feels pretty empty under here without you

**Db**

Dry as a bone but I'm still alone

**F#**

I'm so gray

**Db**

**F#**

When you're standing in a puddle with wet feet

**Db** **F#** **F#13**  
And your head is sore from pounding drops of sleet  
**Db** **F#** **F#13**  
When the cold and lonely hours put your heart to the test  
**B** **Bm** **F#**  
Maybe I ll be the one that you like best

**B** **Bm**  
If the sky can open its eyes  
**F#** **G#**  
And cry from up above  
**G#m** **Db**  
Let s shed some tears of joy  
**F#13** **F#**  
And fall in love
