D:000232  
G:320033

-----  
Standard Tuning: CAPO II [all chords relative to capo]

Intro: C - G - C - G x2

Verse 1:

C                                    G                                    C                    G  
You can fight the fire that s in your head  
C                                    G                                    C                    G  
Lay it down, the hour has come to end  
C                                    G                                    C                    G  
Walk around without her just for a bit  
C                                    G                                    C                    G  
Looking back upon the way things had been

Chorus 1 chords:

G                                    C                                    G  
Man, I ve been wasting so much time  
G                                    C                                    G  
Walking the same street every night  
G                                    C                                    G                    D                    G  
Don t you think maybe it s about time-ime-ime?

Instrumental interlude: [G - D] x3

Verse 2: [use verse 1 chords]

You can light the fire that s in your head  
Put it off, tomorrow will come instead  
We don t watch the tower that tells us when

Pull the wicked flower out from its bed

Chorus 2: [use chorus 1 chords]

Man s been wasting so much time

Sending the children out to fight

Don t you think maybe it s about time-ime-ime?

Instrumental outro: [**G** - **D**] x6
