

Orange County Suite
The Doors

Tabbed by: Nick_Sabath

This song is in the key of C. At least from what I hear. This is my first upload and I did this by ear so bear with me. No one has posted this yet...Quite surprising.

Intro: **C**

C

Well I used to know someone fair

C

She had orange ribbons in her hair

F

She was such a trip

She was hardly there

C

But I loved her

Just the same.

C

There was rain in our window,

C

The FM set was ragged

F

But she could talk, yeah,

We learned to speak

C

And one year has gone by

C

Such a long long road to seek it

C

All we did was break and freak it

F

We had all that lovers ever had

C

We just blew it and I m not sad

C

Well I m mad and I m bad

C

And two years have gone by

C

Now her world was bright orange

C

And the fire glowed

F

And her friend had a baby

C

And she lived with us

C

Yeah, we broke through the window

C

Yeah, we knocked on the door

F

Her phone would not answer,

C

Yeah, but she s still home

C

Now her father has passed over

C

and her sister is a star

F

and her mother smokes diamonds

C

and she sleeps out in the car

C

Yeah, but she remembers Chicago

C

The musicians & guitars

F

and grass by the lake

C

and people who laugh d

C

and made her poor heart ache

C

Now we live down in the valley

C

We work out on the farm

F

We climb up to the mountains

C

and everything s fine

C

and I m still here

C

and you re still there

C

and we re still around

That s it. Fairly easy. It s always fun to play with capos and tunings to change the key. Play around with it and make it your own.
