Save The Last Dance For Me
The Drifters

```
C#              C#           C#
You can dance every dance with the guy who gives you the eye
        G#
Let him hold you tight
        G#          G#                       G#
You can smile every smile for the man who held your hand
          C#          C#
 Neath the pale moonlight

C#7           F#
But don t forget who s taking you home
    F#                    C#
And in whose arms you re gonna be
     G#            G#            C#
So darling, save the last dance for me

       C#            C#              C#
Oh I know that the music is fine like sparkling wine
        G#
Go and have your fun
         G#
Laugh and sing but while we re apart
       C#                    C#
Don t give your heart to anyone

C#7            F#                         F#
But don t forget who s taking you home
   C#                 C#
And in whose arms you re gonna be
     G#            G#          C#
So darling, save the last dance for me

      C#             G#
Baby don t you know I love you so
         G#              C#
Can t you feel it when we touch
      C#              G#
I will never never let you go
       G#            C#
Cause I love you oh so much

      C#            C#             C#
You can dance, go and carry on till the night is gone
       G#
and it s time to go
     G#             G#           G#
If he asks if you re all alone can he take you home
```

```
                      C#
You must tell him no

  C#7              F#
 Cause don t forget who s taking you home
    F#                        C#
And in whose arms you re gonna be
    G#                G#           C#
So darling, save the last dance for me

  C#7            F#
 Cause don t forget who s taking you home
    F#                            C#
And in whose arms you re gonna be
    G#                G#            C#
So darling, save the last dance for me

(Repeat to fade:)
G#                         C#
save the last dance for me
G#                         C#
save the last dance for me
G#                        C#
save the last dance for me
```
