

**Save The Last Dance For Me**  
**The Drifters**

**Bb**                    **Bb**                    **Bb**  
You can dance every dance with the guy who gives you the eye  
                         **F**  
Let him hold you tight  
                         **F**                    **F**                    **F**  
You can smile every smile for the man who held your hand  
                         **Bb**                    **Bb**  
Neath the pale moonlight

**Bb7**                    **Eb**  
But don t forget who s taking you home  
                         **Eb**                    **Bb**  
And in whose arms you re gonna be  
                         **F**                    **F**                    **Bb**  
So darling, save the last dance for me

**Bb**                    **Bb**                    **Bb**  
Oh I know that the music is fine like sparkling wine  
                         **F**  
Go and have your fun  
                         **F**  
Laugh and sing but while we re apart  
                         **Bb**                    **Bb**  
Don t give your heart to anyone

**Bb7**                    **Eb**                    **Eb**  
But don t forget who s taking you home  
                         **Bb**                    **Bb**  
And in whose arms you re gonna be  
                         **F**                    **F**                    **Bb**  
So darling, save the last dance for me

**Bb**                    **F**  
Baby don t you know I love you so  
                         **F**                    **Bb**  
Can t you feel it when we touch  
                         **Bb**                    **F**  
I will never never let you go  
                         **F**                    **Bb**  
Cause I love you oh so much

**Bb**                    **Bb**                    **Bb**  
You can dance, go and carry on till the night is gone  
                         **F**  
and it s time to go  
                         **F**                    **F**                    **F**  
If he asks if you re all alone can he take you home
