Your thirsty kiss thrills me so.  
**G#**                **C#**            **Eb**                **C#**

I ll never, ever, let you go.

#1.

**G#**                **C#**                                **Eb**                **C#**  
If you wanted that star that shines so brightly,  
**G#**                **C#**                                **Eb**                **C#**  
to match the star dust in your eyes.  
**G#**                **C#**                                **Eb**                **C#**  
Darlin , I would chase that bright star nightly,  
**G#**                **C#**                                **Eb**                **C#**  
and try to steal it from the skies. Cause I would give...

CHORUS:

#2.

**G#**                **C#**                                **Eb**                **C#**  
And if you needed a dream to keep you smiling,  
**G#**                **C#**                                **Eb**                **C#**  
I d tell the sandman you were blue.  
**G#**                **C#**                                **Eb**                **C#**  
And I d ask him to keep that sand a-piling,  
**G#**                **C#**                                **Eb**                **C#**  
till your dreams would come true. Cause I would give...

CHORUS:

#3.

**G#**                **C#**                                **Eb**                **C#**  
If you wanted a love to last forever,  
**G#**                **C#**                                **Eb**                **C#**  
then I would send my love your way.  
**G#**                **C#**                                **Eb**                **C#**  
And my love wouldnt t only last forever,  
**G#**                **C#**                                **Eb**                **C#**  
but forever and a day. Cause I would give...
