Ripple Rock
The Evaporators

[Verse 1]
```
D                         Em
Looking up Camel River way
G                           D
There was a rock, that got in the way
D                         Em
Treacherous currents and dangerous spaghettis
G                           D
Turn the ship, into spaghetti!
G           A
Then, one, day
      B                 E
Thew blew, the rock, away
      F#              G
And ripple, became rubble
                    A
And there was no trouble
```

[Hook] x3
```
D               Em
Ten ships, and nine lives later
G                   D
Ripple Rock couldn t stop our freighters
```

[Verse 2]
```
D                           Em
A short blast, but the rock wouldn t last
G                     D
Underwater tunnels and TNT
D                             Em
Mighty close to the workers on that dock
G                   D
Putting lots of time, on the clock
G           A
Then, one, day
      B                 E
Thew blew, the rock, away
      F#              G
And ripple, became rubble
                    A
And there was no trouble
```

[Hook] x4
```
D               Em
Ten ships, and nine lives later
G                   D
Ripple Rock couldn t stop our freighters
```
