

I ll See Your Light
The Everly Brothers

I ll See Your Light

F# **B**
Though the darkness may hide the light
F# **B**
And people like the night turn cold
E **A**
Take away all that s good and bright
D **E** **D** **E**
And still your love shines, a beacon to mine
D **E**
A light my lonely soul can find

Chorus:

A **C#m** **A** **C#m**
So when I feel lost and I reached out
A **C#m** **F#m**
And filled my begging hands with the dust of dreams
F **A**
I ll just turn around and I ll see your light
F#
And I ll see your light

When I look at a lonely face staring from an empty room
I m so glad that I found my place
With you by my side, I ll be satisfied
When all my other dreams have died

Chorus

With you by my side I ll be satisfied
When all my other dreams have died

Chorus
