

**Cant Have It**  
**The Everybodyfields**

**Em**

Hopscotch  
Around the block

**G**

In town those feelings

**D**

Heavy like a headache

**Em**

But in my heart  
Walk, walk  
White sock to sock

**G**

I wonder why these people

**D**

All deceive me

**Em**

Again (again again again)

**C**

Find time  
When my eyes aren t heavy

**G**

Wide awake  
I m almost ready

**D**

Looking back to see that home is wavin

**Em**

No you can t have it

**D**

**C**

But I m sure that you can take it away

**Em**

Here baby

**G**

I don t care about time  
Reflecting memories

**D**

As I m singing

**Em**

All these lies  
Sidewalks

**G**

And streets are paved with faces  
Eyes of fire

**D**

And teeth serrated

**Em**

Spinnin round from my ears down  
A stranger s tongue

**G**

Can be so jaded  
Honey sweet

**D**

And silver plated

**Em**

Left to answer to the sound

**C**

Can t sleep  
If my eyes won t let me

**G**

Both shut  
Still burnin and strainin

**C**

Wake up to see the fingers wavin

**Em**

No you can t have it

**D**

**C**

But I m sure that you can take it away
