I think he knows what to do, I saw him jumpin the queue,

**G** **D**  
But in your heart is fascination and we re waitin for you.

**D**  
Come and get it if you want it,

**Esus4**

**Esus4**  
Sally s gonna get drunk whatever,

**G** **D**  
Everybody round our house tonight.

So the morning has come, and Paul is still on the drums,  
And all the neighbors stopped complaining when we poured em some rum.  
And we ve made so many friends, we don t want it to end,  
Why don t we put on something fabulous and do it again.

So come and get it if you want it,  
Ellie s all dressed up like she promised,  
Anna she don t care what s wrong or right.  
Janey s gonna live forever,  
Sally s gonna get drunk whatever,  
Everybody round our house tonight.  
Got to be there

**D**  
Should ve been there, should ve been there, ah ah,

**Esus4**

Should ve been there, should ve been there,

**G**

Should ve been there, should ve been there, ah ah,

**D**

Should ve been there, should ve been there

**Em**

**Gm**

Every game played, has a winner,

And every sin made has a hundred sinners.

Come and get it if you want it,  
Ellie s all dressed up like she promised,  
Anna she don t care what s wrong or right.  
Janey s gonna live forever,  
Sally s gonna get drunk whatever,  
Everybody round our house tonight.

Should ve been there, should ve been there, ah ah,  
Should ve been there, should ve been there,  
Should ve been there, should ve been there, ah ah,  
Should ve been there, should ve been there
