

Velvet Blues

Yet another easy and fun song from the fighting hukills. Iâ€™m not sure what these chords but I will tab them out. The chords are in this order through the whole song just with picking and strumming patterns, not too hard to figure out.

Velvet Blues
The Fighting Hukills

```
D           B           C
You got bells on your fingers
D           B           C
And a bluebird in your eye
D           B           C
Whoa how you make those
D           B           C           D
Good boys cry
```

With an acid washed smile
And a velvet sleeve

Youâ€™re dropping lies
Like flies in the cream

Ainâ€™t it just like...
Velvet blues, I donâ€™t know what to do
With velvet blues
I never knew youâ€™d be so cool

You got a quadrophonic sound
And coca cola eyes
Wax candle shins
And crisco flavored thighs

Stained glass shoe shine
And altercations in your mind
Your sleeping in the seaweed
Cracking crab apple pie

Velvet blues, I donâ€™t know what to do
With velvet blues
Oh howo oh uuuhhhh....

AGAIN, YOU CAN MOST LIKELY FIGURE OUT THE CHANGES PRETTY EASILY.
