

**Are You A Hypnotist**  
**The Flaming Lips**

To simplify it, I've taken out all the funny 6ths and 7ths (with the exception of

**Cmaj7** which is just **C** without your index finger). Still sounds ok. The hardest part about it is trying to fit the lyrics into the weirdly long verse lines. Just keep counting out 4 beats per bar and it works.

[Verse 1]

**C Cmaj7 G G G G C C**  
I had forgiven you for tricking me, again  
**C Cmaj7 G G G G C C**  
But I had been-tricked again in to forgiving you

[Chorus]

**Am G Am Em**  
What is this? Are you some kind of hypnotist?  
**F G Am Am**  
Waving your powers, around

[Bridge]

**Ab Bb C C**  
The sun eclipse behind, the cloud

[Verse 2]

**C Cmaj7 G G G G C C**  
I thought I recognised your face amongst all of those strangers  
**C Cmaj7 G G G G C C**  
But I am the stranger now amongst all of the recognised

[Chorus]

**Am G Am Em**  
What is this? Are you some kind of hypnotist?  
**F G Am Am**  
Waving your powers, around

[Bridge]

**Ab Bb C C**  
The sun eclipse behind the cloud  
**Ab Bb C C C**  
The sun eclipse behind the cloud
