The Flaming Lips  
Be Free, A Way - Chords  
The Terror

I play it with a capo on the 4th fret. If you don't have a capo, scroll down to see the non-capo version.

From what I can tell, most of the actual song drones on one or two chords. These chords are pretty much based on the vocal melody, but it still sounds good if you play along with the album or by yourself.

All chords relative to the capo on the 4th fret.
