

The Spiderbite Song
The Flaming Lips

This song is mainly piano based, but it sounds alright to play the chords on guitar....

INTRO: A D E

A D E A D E
When you got that spider bite on your hand

A D E A D E
I thought we would have to break up the band

A D E A D E
To lose your arm would surely upset your brain

A D E A D E
The poison then could reach your heart from a vein

D E
I was glad that it didn't destroy you

D E
How sad that would be

D E
Cause if it destroyed you

A D E
It would destroy me

A D E A D E
When you had that acci-dent in your car

A D E A D E
That whole thing just really seemed too bizarre

A D E A D E
Dodging holes and telephone poles through the dash

A D E A D E
A million to one that you would survive such a crash

D E
I was glad that it didn't destroy you

D **E**
How sad that would be

D **E**
Cause if it destroyed you

A **D** **E**
It would destroy me

A **D** **E** **A** **D** **E**
When you fell in love, it was so sweet

A **D** **E** **A** **D** **E**
So devoted, completely swept off your feet

A **D** **E** **A** **D** **E**
Love is the greatest thing a heart can know

A **D** **D** **C#m** **F#m**
But the hole that it leaves in its absence can make you feel....so....low

D **E**
And I was glad that it didn't destroy you

D **E**
How sad that would be

D **E**
Cause if it destroyed you

A **D** **E**
It would destroy me
