From the ragged fence
C#m C#madd4, C#m
to the cosmic bends

we have payed our way with eagerness
Amaj7
and forced the world to make some sense

E Eadd9, E
In this endless space,
C#m C#madd4, C#m
looking for Gods given grace
G#m
Among countless scattered dying stars
Amaj7
by the fireplaces we found some comfort

[Chorus]

F#m
Waiting all to serve a greater purpose

or to join the cosmic circus now

From the garden greens **Ema j7** **Ema j7add9, Ema j7**

We all worked the land and payed in sweat **G#m** **G#m7**
while sweet illusions were passing by **Ama j7**

Like fading tribe
on the ocean wide
In a random flash we live and die
Searching all religions, reason why

[Chorus]

Waiting all to serve a greater purpose
or to join the cosmic circus now

[Verse 3] (Same as Verse 2)

From the habbit hole, to the frozen poles
we have filled our hearts with poetry
while science was our leading star

On to million suns
where our fading memories dance
While we try so hard to understand
the untold genesis of man

[Chorus]

Waiting all to serve a greater purpose
or to join the cosmic circus now
