

Creepin Up The Backstairs
The Fratellis

hey i finally figured out the lead guitar in Creepin Up the Backstairs ,
although it is
the awesome lead part, the chords and rhythm are already posted in another great
tab,
is actually a very difficult song, because you have to move up and down the
fretboard a
and it gets pretty tricky, well here it is, the first lead part for this song,
please
and rate its one of my first tabs (second actually)

This whole part is Lead 1, incuding the Play 6 Times.

```

e|-----3-3-----0-----10-10---0-----0--3-3-----8-----7-----
6---5-----|
B|-----3-----9-----1/2-----3
-----X-----Play-----|
G|-2/4-----4-----7-----7-----6
-----5-----6-Times-----|
D|
-----
-----|
A|
-----
-----|
E|
-----
-----|

```

(Only on the first time playing this do you slide 2/4, the rest of the time,
just play 4)

This whole part is Lead 2, including the Play 3 Times.

```

e|-----12--12-----8-8-----10-10-----|
B|-12--12-----8-----10-----Play-----|
G|-----5/8-----8---8/10-----10-----3-Times-----|
D|-----|
A|-----|
E|-----|

```

Then play: (this is also part of lead 2.)

```

e|-----12-12-12-----8-8-----10-10-----|
B|-12-12-12-----8-----10-----|
G|-----5/8-----8---8/10-----10-----|
D|-----|
A|-----|
E|-----|

```

After you play all of this:

Play lead 1 again.

Play lead 2 twice, but not directly after one another,
there are other rhythm guitar parts that are played in between.

And thats it, a great Fratellis lead part. short tab i know, but thats only
because the
is just 3 parts repeated. Enjoy!
