

Rock N Roll Will Break Your Heart  
The Fratellis

**B** **Abm**  
Well I don t know who you are  
**B** **Abm**  
And I don t care where you ve been  
**E** **Dbm**  
Please just take this deadbeat soul  
**F#**  
Let him keep the hearts he stole

**B** **Abm**  
And all those little lies  
**B** **Abm**  
They told ya in disguise  
**E** **Dbm**  
They got you through those lonely hours  
**F#**  
Made you think the world was ours

**E**  
I m the man who shot the moon and cried  
**B**  
Let those thieves and bastards all collide  
**Abm** **E** **F#**  
Take these words and burn them if you don t mind

**E**  
Oh sweetheart these nights were made for me  
**B**  
Still so far from where I long to be  
**Abm** **E**  
You said it from the start  
**F#** **E**  
Rock n roll will break your heart

**B** **Abm**  
There s a holy roller sign  
**B** **Abm**  
And a chance she won t be mine  
**E** **Dbm**  
There s no teenage dreams to fill  
**F#**  
Break my heart I know you will  
**B** **Abm**  
And we ll tumble down the street

**B** **Abm**  
Sleep alone in my back seat  
**E** **Dbm**  
Oh all that jealous talk we made  
**F#**  
Strung out in the soul parade

**E**  
I m the man who shot the moon and cried  
**B**  
Let those thieves and bastards all collide  
**Abm** **E** **F#**  
Take these words and burn them if you don t mind
