VERSE 1:

```
F#              C#                   Bbm
In midair and floating off to space,
     Ab
I m moving in,
    F#               C#            Bbm
Your hair is falling all around my face,
       Ab
Like a parachute,
    F#                 C#              Bbm
I m breathing in, you re breathing out the same,
   Ab
We give and take,
    F#            C#          Bbm
And let the water fall on the flame,
        Ab
It s not burning out
```

CHORUS:

```
    F#/Eb      C#/F        Bbm         Ab
I ll keep you warm, dancing in a downpour,
    F#/Eb      C#/F        Bbm         Ab
And I will hold your body slowly turning,
    F#/Eb      C#/F        Bbm        Ab
I ll keep you warm, dancing in a downpour,
    F#/Eb      C#/F        Bbm        Ab             F#
Breathe it in, we ll take it off and soak our skin
```

VERSE 2:

```
She s in a town that holds a lonely road,
And the night is falling,
There s a road that follows to a home,
And the sky is heavy,
In the home she s in a lonely room,
With music playing,
Can she hear my heart coming through,
```
