Trust Me
The Fray

```
B                         Ebm
Looking for something I ve never seen
F#                    B
Alone and I m in between
B                               Ebm
The place that I m from and the place that I m in
   F#             B
A city I never been
B                           Ebm
I found a friend or should I say a foe
     F#                           B
Said there s a few things you should know
B                             Ebm
We don t want you to see we come and we go
     F#                 B
Here today, gone tomorrow

B
We re only taking turns
Ebm            F#
Holding this world
B
It s how it s always been
Ebm                          F#      B
When you re older you will understand

Ebm  F#  B

B                             Ebm
If I say who I know it just goes to show
        F#                      B
You need me less than I need you
B                           Ebm
Take it from me we don t give sympathy
      F#                    B
You can trust me trust nobody
B                               Ebm
But I said you and me we don t have honesty
     F#                          B
The things we don t want to speak
B                           Ebm
I ll try to get out but I never will
F#                          B
Traffic is perfectly still

B
We re only taking turns
```

Ebm   **F#**
Holding this world
B
It s how it s always been
Ebm   **F#**   **B**
When you re older you will understand

Ebm   **F#**   **B**
And then again maybe you don t
Ebm   **F#**   **B**
And then again maybe you won t
Ebm   **F#**   **B**
When you re older you might understand
Ebm   **F#**   **B**
When you re older you might understand

Holding this world

It s how it s always been

When you re older you will understand
