Whatever
The Frights

[Verse 1]
```
                  B
I used to like FIDLAR
              Dbm
That s what she told me
        E                            B
As I got into my van to see the country

                      B
Now sheâ€˜Â€Â™s got a new boyfriend
              Dbm
Or so I m guessing
            E                   B
Probably kisses her way better and that s depressing

                    B
Now I m drinking in Philly
              Dbm
While thinking of Sera
              E                   B
And there s a million little things she s unaware of

                  B                 Dbm
Couldnâ€˜Â€Â™t tell if she saw me, or if she s even looking
                  E                   B
There s no other place I d rather be than Brooklyn
```

[Chorus]
```
          Dbm
And I am so fucking sick
          E
Of you acting like a dick
          B                         F#
Iâ€˜Â€Â™m just trying to pull my life back together
          Dbm
And I am too fucking tired
            E
Of you calling me a liar
            B                       F#
Just tell you what I want, Iâ€˜Â€Â™ll say whatever
```

[Verse 2]
```
                    B
I was thinking about calling
```

```
            Dbm
But I'm feeling lazy
              E                                         B
Eight hundred miles in a car can drive you crazy

                            B
We could say that it was worth it
            Dbm
For a minute it was perfect
            E
But I'm tired of this hurting
                B
I need to work shit out

                  B
And I m still messed up
                Dbm
From when you said you didn't love me
                    E
Thirty minutes before we played
                    B
Ten songs about your name

                B
And this crowd is screaming back
              Dbm
As I had a heart attack
                    E
As I tried to play the lead
                    B
As I yelled 'You're all I need'

[Chorus]

Dbm
And I am so fucking sick
          E
Of you acting like a dick
          B                                 F#
I'm just trying to pull my life back together
              Dbm
And I am too fucking tired
                E
Of you calling me a liar
                B                           F#
Just tell you what I want, I'll say whatever

[Bridge]
        E                   F#
I freaked out when I saw her there
          B                 E
I didn't know what to do
```

```
      E                   F#
Looked at me like I meant something
      B           E
I never saw that in you
      E           F#                    B              E
I won t let you go  cause I love you more than I ever wanted to

[Chorus]

Dbm
And I am so fucking sick
          E
Of you acting like a dick
          B                           F#
Iâ€˜Â€Â™m just trying to pull my life back together
           Dbm
And I am too fucking tired
            E
Of you calling me a liar
           B                          F#
Just tell you what I want, Iâ€˜Â€Â™ll say whatever
```
