

Awkward Conversations
The Front Bottoms

this is not the official version, this is how i do it when i do covers of it. it s very similar to the original, which uses no capo and only power chords. version1 of this tab uses those, and this is a simpler and in my opinion better way to play it. enjoy!

G **D**
nothing but i m writing like i ve had too much to drink
Em/B **C**
letting go of what we ve lost
G **D/F#**
come to terms with how you think of me

and i love what you ve done

you ve cut off ties, you turn and run
Em/B **C**
you built me up to take your fall
G **D/F#**
then led us straight into a wall

[Chorus]

and i ll say
G **C** **Em/B** **D/F#**
i personally think it s too cold to have the windows open
G **C** **Em/B** **D/F#**
but you wanna smoke your menthol cigarettes
G **C** **Em/B** **D/F#**
i personally think it s too cold to have the windows open
G **C** **Em/B** **D/F#**
but you wanna smoke your fucking cigarettes

[Verse 2]

you might be leading now but there is no way you could ever win

D/F#

when you have absolutely no control over any of the situations that you put yourself in

and i wish that i could pretend to be all of the things you think you see in me

but i am not that guy, that guy just left

he had his collar up and there was smoke on his breath

and we have these parties for the way it was

but once the booze is gone is it worth the buzz

because i ve got some problems and i m talking loud

and all your friends are here so word will get out

[Chorus]

that i personally think it s too cold to have the windows open

but you wanna smoke your goddamn cigarettes

and i personally think it s too cold to have the windows open

but you wanna smoke your menthol cigarettes

[Chorus]

i personally think it s too cold to have the windows open

but you wanna smoke your menthol cigarettes

and i personally think it s too cold to have the windows open

but you wanna smoke your menthol cigarettes

[Outro]
