The Fugs

in the original key of A major
chords are the same for the verse and chorus

Bb	G#	Eb	C
I don t have a bedtime, I don t need to come.

Bb	G#	Eb	C
If you don t like sleeping, and don t want to screw,			
F	Eb	Bb	
Then you should take lots of am-phetamine too.			

chorus:

Gabba gabba gabba gabba(x2) fet fet feta-mine
gabba gabba gabba gabba(x2) fet fet feta-mine
Gabba gabba gabba gabba(x2) fet fet feta-mine
gabba gabba gabba gabba(x2) fet fet feta-mine

I m always excited, I just love to walk.
My jaws keep on turning and churning out talk.
I love to draw pictures in layers and layers
and say the words backwards, when I say my prayers!

(chorus)

These lemules (?) and games, they make life so sweet.
I can walk down streets without moving my feet.
My brain works so fleet, I can outwit the heat.
And I never feel beat, and I don t need to eat!

(chorus)

There s nine bouncing people, in one little room.
The vectors are threading eternity s loom.
It s not bad for brain cells, the doctors proclaim.
It s almost as safe as that dull cocaine!

(chorus)
